OUR COMMUNITY

Maasai (not Masai) is the correct spelling of this noble tribe: it means people speaking maa. Masai was the incorrect spelling of the British settlers and has remained in current use. The Maasai have always been special. Their bright red robes set them apart visually. Spear in hand, they are calm and courageous regardless of the danger.

The armed British troops who drove the Maasai from their lands in the early 20th century had great respect for these fearless tribesmen. Up until recently, the only way for a Maasai boy to achieve warrior status was to single-handedly kill a lion with his spear.

Wild Root Safaris works with the Maasai community on a knowledge-sharing basis to create and implement holistic and comprehensive programs in conservation, health, and education that serve the community, the wilderness, and the wildlife that are so important to us all.
